English

# Chloe Chin

Creative and detail-oriented student with a passion for combining design and technology. Skilled in 3D modeling, coding, and cross-functional collaboration, with a strong interest in developing interactive digital experiences and solving creative problems.

## EXPERIENCE AND PROJECTS

### Art Against Overdose Pop-up Shop

- Worked with a team to organize and execute a fundraising initiative for LSU End Overdose chapter.
- Managed event logistics, coordinated vendors, and optimized marketing strategies.

### XR Horror Experience

- Led the design and execution of technical and visual assets in a multi-department XR production.
- Worked closely with developers and artists to ensure smooth integration of VFX in Unity.

### 3D Modeled Restaurant

- Created an optimized virtual environment in Maya.
- Resolved UV distortion and refined textures to simulate realistic lighting and materials.

### Creative Coding Projects

- Designed interactive generative artworks combining randomness and algorithmic logic.
- Optimized performance through code refactoring and animation efficiency.

## EDUCATION

### Louisiana State University

**Major:** Bachelor of Arts in Art & Design

**Minor:** Computer Science and Digital Media of Arts and Technology
