Chloe Chin

Eager to apply creativity and technical skills in game design and UX, with strengths in content development, problem-solving, teamwork, and enhancing structured gameplay and player engagement.

EXPERIENCE AND PROJECTS

Pentel Student Ambassador

- Led campus marketing initiatives to increase brand awareness through targeted creative campaigns
- Created digital and physical content that strengthened brand identity among student audiences
- Acted as a liaison between Pentel and the student community, delivering insights on trends and user behavior

Magidemia — Interactive Web Game

- Developed the overall visual identity and art direction for the project, establishing a cohesive design system and aesthetic.
- Created all animated sprites, motion graphics, and interactive visual assets used throughout the experience.
- Collaborated with team members to maintain visual consistency and integrate assets into the final product.

Case Closed — Interactive Detective Experience

- Designed an interactive mystery game focused on decision-based storytelling and cognitive engagement
- Created high-fidelity UI prototypes in Figma simulating full game flow

3D Modeled Restaurant

- Proficient in sculpting, UV editing, rendering, and lighting within a unique environment.
- Resolved UV distortion issues and optimized texture adjustments.
-

EDUCATION

Louisiana State University

Major: Bachelor of Arts in Art & Design

Minor: Digital Media Arts & Engineering (DMAET)

WORK EXPERIENCE

Modesto Tacos, Tequila, and Whiskey — Server (Sept 2023–June 2026)

- Delivered exceptional service & multi-tasked in a fast-paced setting.

Lippert — Marketing Intern (June 2025–Aug 2025)

- Contributed to UWS brand refresh, supporting development of updated visual identity and messaging systems
- Designed and refined digital marketing assets for web, Amazon storefront, and trade events
